PROFESSIONAL SUMMARY

Computer Engineer specialised in Software Engineering, with professional experience in backend development using Java, Spring and SQL. Strong interest and hands-on projects in Artificial Intelligence and Machine Learning, including fine-tuning of language and vision models and full-stack web application development.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript/TypeScript, C#, C++, SQL, HTML/CSS

Frameworks & Libraries: Spring, Next.js, React, Angular, ASP.NET, GWT, Mockito

AI / ML: LLM/VLM fine-tuning (LoRA, PEFT, Unsloth), AI API integration (DeepSeek, Gemini, Gemma), OCR pipelines

Databases: PostgreSQL, MySQL, Oracle, Supabase

Tools & DevOps: Git, Docker, Vercel, RunPod, JBoss, Maven, LaTeX, CI/CD

Methodologies: Scrum/Agile, TDD, unit testing

PROJECTS

Scannet — Final Degree Project (TFG) — *Next.js, Supabase, DeepSeek-VL2 (LoRA fine-tuning), RunPod, Vercel, OCR*

Need: digitalise data from purchase receipts, removing manual data entry.

Idea: combine OCR with a fine-tuned vision-language model to extract structured data automatically.

AI Order Automation — *Spring, Angular, MySQL, external APIs (WhatsApp, DeepSeek)*

Need: orders arrived as informal WhatsApp messages and required manual transcription.

Idea: use an LLM (DeepSeek) to interpret natural language and generate structured orders automatically.

Online Store — *Spring (backend), JavaScript (frontend), HTML, MySQL*

Need: provide local businesses with their own online sales channel.

Idea: build a reusable full-stack e-commerce solution for small local businesses.

Gym Fitness Application — *Spring (backend), JavaScript (frontend), HTML, MySQL*

Need: centralise the management of a gym's services.

Idea: a specialised platform for the day-to-day operations of a fitness centre.

Web Application for an English Academy — *C#, ASP.NET*

Need: a local English academy needed to digitalise the management of its activity.

Idea: address the real business needs of a local company with a tailor-made web application.

WORK EXPERIENCE

Junior Developer — Indra Producción Software

Jan 2021 – Oct 2021

- Backend development and maintenance in Java 8 with Spring and Oracle.
- Implementation of unit tests (Mockito).
- Database management and SQL queries.
- Deployment on JBoss server and front-end development with GWT.
- Work under Scrum methodology and use of Git.

Web Application Developer — All Natura S.L.

Oct 2020 – Jan 2021

- Web page design and layout.
- Customisation of the Odoo CRM.

Developer Intern — Star-Group

Apr 2020 – Jun 2020

- Individual development of a web application in ASP.NET.
- Work under agile Scrum methodology.

EDUCATION

BSc in Computer Engineering — University of Almería

2021 – 2026

Specialisation in Software Engineering

Higher Technician in Multiplatform Application Development (DAM)

2018 – 2020

IES Los Montecillos

Technician in Microcomputer Systems and Networks (SMR)

2016 – 2018

IES Gerald Brenan

LANGUAGES Spanish: Native | English: Native
